Jasin, ul. Rabowicka 6, 62-020 Swarzędz

CHANGE NOTICE NO. 2

concerning:

APPLICATION FORM for admission to the tender of November 28, 2025

The Ordering Party informs that it has made changes to the content of point **IV. Bidder's Declarations**, which took the form of:

„IV. Bidder's Declarations:

The Offeror declares that:

A. During the last 5 years immediately preceding the date of submission of the Application Form, and if the period of activity is shorter – then during this period, he has completed at least one order: carried out on a turnkey basis or as a delivery, the subject of which was:

- a) construction of an energy facility with a total electrical capacity (at the connection point) of at least 2.0 MW,
or
- b) construction of an energy storage facility (BESS) with a total electrical capacity (at the connection point) of at least 2.0 MW,

including: preparation of detailed documentation, delivery of equipment and materials, execution of construction and assembly works, commissioning and start-up of the facility, culminating in its handover for operation, participation in acceptance tests related to the connection to the electricity distribution/transmission network and provision of warranty services

Information on completed orders can be found in Appendix 1 to the Application Form.

B. Construction manager indicated by the Bidder:

- a) has held construction qualifications for at least five years in the construction and building specialty without restrictions or in the installation specialty in the field of electrical and power networks, installations and devices without restrictions, issued in accordance with the provisions of the Act of 7 July 1994 - Building Law, or equivalent qualifications acquired in countries other than the Republic of Poland,
- b) is fluent in Polish or the Bidder will provide, at his own expense, a person fluent in Polish as an interpreter;
- c) and has experience gained over the last five years in the organization and management of construction works in the implementation of more than one investment involving the construction of an energy facility on a turnkey basis with a capacity at the point of connection of not less than 2.0 MW.

Information on completed orders can be found in Appendix 1 to the Application Form.

C. During the last 5 years immediately preceding the date of submission of the Application Form, and if the period of activity is shorter – then during this period, the Contractor has completed/is completing at least one order: carried out in the "O&M" formula, the subject of which was:

- a) provision of maintenance services for an energy facility with a total electrical capacity (at the point of connection) of at least 2.0 MW,
or

b) provision of maintenance services for energy storage installations (BESS) with a total electrical capacity (at the point of connection) of at least 2.0 MW,

Information on the orders being processed/services being provided can be found in Appendix 1 to the Application Form.

The Ordering Party is entitled to verify the information provided by the Bidder, in particular by requesting the Bidder to provide explanations or submit documents confirming the accuracy of the information provided."
